Journey Air Pilot Training

Cost Estimate – Commercial Pilot License

Supplementary Program Cost Information:

The cost estimate for this license is trickier. The PPL, Night Rating, Multi-engine and Multi IFR ratings can be part of the Commercial Pilot training. We prefer that approach but that may not suit everyone. As a result, the costs below are an approximation because of individual choices and completed during training.

35 hours dual flight instruction (aircraft + instructor): \$9,975

10 hours simulation (sim + instructor): \$2,850

100 hours solo (TC minimum): \$20,000

Online Ground School – Hangaar: \$250

Pre & Post-flight briefings: \$2,465

Flight testing (aircraft + examiner fee): \$700 approx.

Course Material: \$300 approx.

TC license fee: \$65

****Taxes & Fuel surcharges not included in prices**

****Prices are subject to change**

Space is limited with regard to instructor training. A \$1000, non-refundable deposit is required prior to commencing the training to protect program registration.

This program does not run on a continuous basis and is offered only at certain times of the year. Instructor ground training outside structured courses may require increased briefing time costs.

Larger candidates may be scheduled to use the DA40 aircraft which has a higher operating cost (\$230/hour for the aircraft versus \$200/hour for the DA20).
